

Release Notes

Release Date: 11/15/2022

RELAY

- FEATURES
 - Enhanced the driver ID list paste capability in group messaging to show a list of IDs not found in the system. See image, “Driver IDs Not Found.”

TORQUE

- FEATURES
 - Added an on-premises API with load support for the Eleos integration.
 - Added messaging support for the Omnitracs XRS integration. See image, “Omnitracs XRS Messaging Support.”
 - Added support for trailer handling with workflow in a TMS.
 - Improved page styling for overall design consistency.
- BUG FIXES
 - Resolved a bug with forwarding form-encoded messages for the Eleos integration.
