Motorcity Systems

Release Notes

Release Date: 4/18/2023

ADMIN

- FEATURES
  - Improved page styling for overall design consistency.
  - Improved the SMS authorization process for drivers by allowing a driver to opt-in to receive SMS messages after previously opting out by sending a text message.

RELAY

- FEATURES
  - Added documents to the search. See image, "Document Search."
  - Added the enforcement of required fields for users editing documents submitted by drivers.
  - Added visibility for rejected documents and a method of dismissing duplicate documents. See image, "Rejected Documents and Dismissing a Duplicate Document."
  - Removed errors from drivers with activity older than the time to live window.
- BUG FIXES
  - Fixed a bug where a page exit confirmation modal appeared while approving an edited document.
  - Fixed a problem where a toast message appeared in error while viewing approved and rejected documents.
  - Resolved an issue where the original data showed for a document instead of the edited data.

ROLLER Desktop

- FEATURES
  - Added a column for Business Units to the Document Types grid. See image, "Added Business Units Column to Document Types Grid."

TORQUE

- FEATURES
  - Expanded the monitoring of message counts.
  - Improved load management support functions for the Eleos integration.
  - Improved the authentication connectivity to the Eleos integration.
  - Improved trailer handling for the beginning and end of trips for the TMW integration.
  - Set up reference number mapping for the MobileComm integration.
- BUG FIXES
  - Resolved an issue where processing workflows stopped because log files were not being written.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.
