Release Notes

Release Date: 5/16/2023

ADMIN

- FEATURES
  - Added Alt+Enter keystroke functionality to the Create icons for Drivers, Power Units, Trailers, and Groups. See image, "Create Keystroke Functionality."
  - Improved page styling for overall design consistency.

RELAY

- FEATURES
  - Added outbound error messaging for loads that do not pass location validation for Eleos users. See image, "Eleos Location Validation Error."
  - Added the ability for a user to export driver messages via the RELAY API.

ROLLER Desktop

- FEATURES
 - Added system validation to fields in documents. See image, "System Validation for Fields."

ROLLER Mobile

- FEATURES
 - General maintenance and performance improvements.

TORQUE

- FEATURES
  - Added a healthcheck for the TORQUEClient.
  - Added a runtime log to the Geotab integration. See image, "Geotab Runtime Log."
  - Added control of SQL query timeouts for the TORQUEClient.
  - Added on-premise authentication for Eleos.
- BUG FIXES
  - Added the tenant ID to the log data for the Eleos integration.
  - Fixed an issue with the "from" phone number for the Twilio integration.
  - Fixed a problem with trailer numbers not cascading down to secondary events.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to underline_support@motorcity.systems.
