

Release Notes

Release Date: 6/27/2023

ADMIN

- FEATURES
 - Improved page styling for overall design consistency.

IDENTITY

- FEATURES
 - Improved page styling for overall design consistency.

ROLLER

- FEATURES
 - Added priority to Android notifications so drivers can receive banner push notifications when the app is not in the foreground.
 - Added a button to upload an image from a driver's device when scanning documents. See image, "Upload an Image."
 - Added the enforcement of valid date and time ranges when submitting documents.

ROLLER Desktop

- FEATURES
 - Added a requirement to specify a document ID when creating a new document. See image, "Document ID Field."
 - Added a setting to require that date and time entries are in the future. See image, "Future Date and Time Setting."
 - Configured the visibility settings for text fields in documents. See image, "Text Visibility Settings."

TORQUE

- FEATURES
 - Added a new provider, BlackBerry Radar.
 - Added elements for capturing and storing trailer tracking data.
 - Improved the handling of driver birthdays.
- BUG FIXES
 - Addressed a need for default truck routing parameters for HERE Maps when a trip was sent with the Eleos integration.
 - Fixed an issue with the Eleos integration where the date and time on a dispatched trip did not match the date and time on the actual trip.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.
