Release Notes

Release Date: 9/19/2023

RELAY

- FEATURES
    - Added the ability for a document type to be changed on a submitted document awaiting review. See image, "Change the Type of a Submitted Document."

ROLLER

- FEATURES
    - Added support for case-sensitive entries in conditional text fields.
    - Added the app version to the sign-in screen. See image, "ROLLER App Version."

TORQUE

- FEATURES
    - Improved the default integration assignment configuration by adding support for business units. See image, "Default TORQUE Integration Assignment."
- BUG FIXES
    - Addressed a problem with timestamps on resubmitted forms.
    - Fixed a syncing issue with analytics data by improving duplicate detection.
    - Improved how empty moves are handled for TMW.
    - Resolved an issue with the filename pattern with documents for the Eleos provider.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.
