

Release Notes

Release Date: 10/1/2024

IDENTITY

- FEATURES
 - Added a history log for changes made to a user's profile. See image, "User Profile History."

RELAY

- FEATURES
 - Added the ability to filter by trip number to document review. See image, "Filter Documents by Trip Number."

ROLLER

- FEATURES
 - General maintenance and performance improvements.
 - Improved page styling for overall design consistency.
- BUG FIXES
 - Resolved an issue where a step was completed when a required action was incomplete.
 - Resolved a processing error with deleted trip events.

ROLLER Desktop

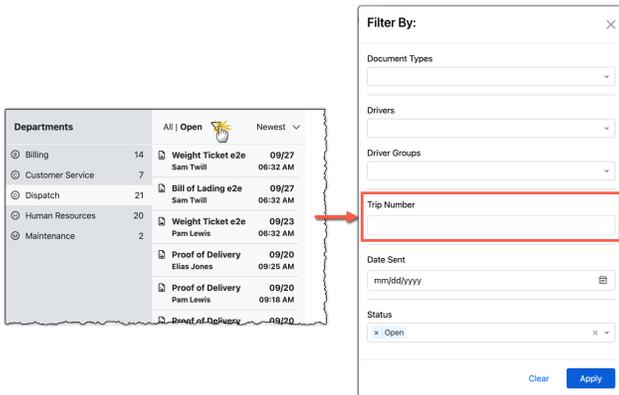

- FEATURES
 - Added measures to display fields in the same order as configured in documents, forms, and signatures when sent in email.
 - Added the preview of a form to activity settings. See image, "Preview a Form on an Activity."
 - Improved the configuration of delivery methods for documents and signatures.
- BUG FIXES
 - Resolved an issue where canceling the deletion of an action resulted in the removal of another action.

TORQUE

- FEATURES
 - Configured the geofence to be square in shape when a zone is created in Geotab by the location sync.
- BUG FIXES
 - Resolved an issue with the Omnitrac's XRS integration caused by an update to .NET 8.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.

Filter Documents by Trip Number

The screenshot shows a document list on the left and a 'Filter By' dialog box on the right. A red arrow points from the 'Trip Number' field in the dialog to the corresponding column in the document list.
