

# Release Notes

Release Date: 11/12/2024

## RELAY

- FEATURES
  - Added scheduling for group messages. See image, “Schedule Group Messages.”
  - Improved the document search performance by applying document criteria to the filter.
- BUG FIXES
  - Resolved an issue where driver names were missing from the Drivers menu for the document filter.

## ROLLER

- FEATURES
  - Added functionality for drivers to auto-depart stops when leaving a geofenced area.
  - Added single sign-on (SSO) support for Trimble Instinct devices.
- BUG FIXES
  - Resolved an issue where the oldest settlements were not always displaying first.

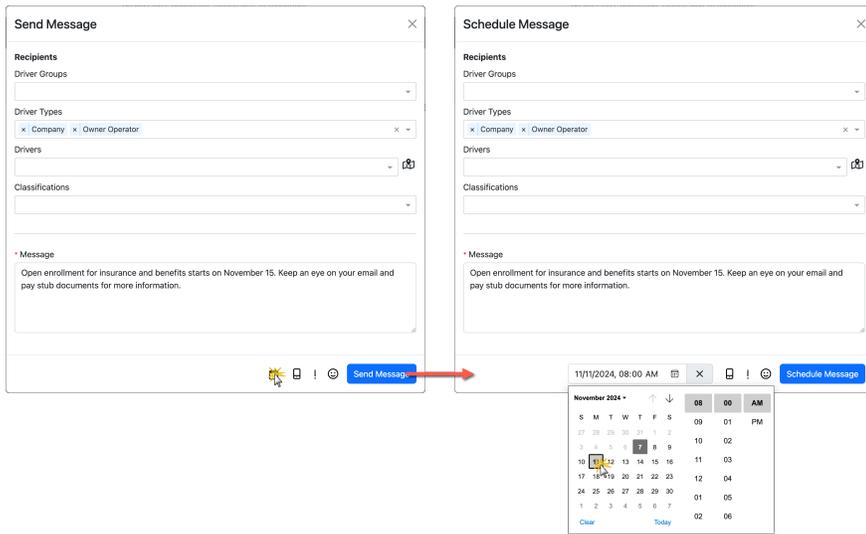

## ROLLER Desktop

- FEATURES
  - Added logic to reset workflows and steps on a rule if the rule type is changed.

## TORQUE

- FEATURES
  - Added checks for containers and chassis for intermodal loads to the TMWSuite integration.
  - Added support for both load acceptance and driver assignment in the same transaction for the Optimal Dynamics integration.
  - Added the ability to batch update completed and cancelled trips.
  - General maintenance and performance improvements.
- BUG FIXES
  - Resolved an issue with HOS and duty status mappings for the Trimble Instinct integration.

## Schedule Group Messages

The image shows two side-by-side dialog boxes: "Send Message" on the left and "Schedule Message" on the right. Both have identical fields for "Recipients" (Driver Groups), "Driver Types" (Company, Owner Operator), "Drivers", and "Classifications". The "Message" field in both contains the text: "Open enrollment for insurance and benefits starts on November 15. Keep an eye on your email and pay stub documents for more information." The "Send Message" dialog has a "Send Message" button, and the "Schedule Message" dialog has a "Schedule Message" button. A red arrow points from the "Send Message" button to a calendar overlay. The calendar shows the date 11/11/2024, 08:00 AM, and the time 08:00 AM. The calendar grid shows the month of November 2024, with the 11th highlighted.
