Release Notes

Release Date: 12/17/2024

ADMIN

- BUG FIXES
  - Resolved an issue with location details after both the address and a business unit were edited.

RELAY

- FEATURES
  - Added support for sending images to drivers using Twilio.
  - Added the ability to filter search results based on a trip number from ROLLER. See image, "Filter Search Results by Trip Number."
  - General maintenance and performance improvements.
  - Updated the colors and styling of the SMS icon.
- BUG FIXES
  - Resolved an issue where accepted documents were not being delivered.
  - Resolved an issue where the SMS delivery status, priority, and use of emojis could not be edited for a scheduled message.

ROLLER

- FEATURES
  - Added support for sorting trips in ascending or descending order.
- BUG FIXES
  - Resolved an issue with notifications not working if another driver was previously signed in on the app.

ROLLER Desktop

- FEATURES
  - Added settings to generate a cover sheet to attach to documents.

TORQUE

- FEATURES
  - Added functionality to remove canceled trips from ROLLER for the TruckMate integration.
  - Added more event filtering options to the runtime logs for the Motive, Platform Science, and Transflo integrations.
  - Implemented retrying failed database updates and additional logging for the TMWSuite integration.
  - Improved page styling for overall design consistency.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.
