Release Notes

Release Date: 2/4/2025

IDENTITY

- FEATURES
  - Added settings to configure a driver's visibility to each department via business units. See image, "Associate Departments with Business Units."

RELAY

- FEATURES
  - Enhanced filtering of the driver column to include workflow errors and the selection of multiple filter criteria. See image, "Driver Column Filter."
  - Improved page styling for overall design consistency.
- BUG FIXES
  - Resolved an issue where confirmation of an approved document did not get properly communicated to ROLLER users.

ROLLER

- FEATURES
  - Added a new field, unique identifier, to documents and forms. See image, "Unique Identifier."
  - Added banners to alert drivers if documents, forms, or images are uploading.
  - Improved messaging for drivers by only showing departments visible for their business unit.
- BUG FIXES
  - Resolved an issue where text-to-speech played the contents of image-only messages.

ROLLER Desktop

- FEATURES
  - Added a new field, unique identifier, to documents and forms. See image, "Unique Identifier."
  - General maintenance and performance improvements.

TORQUE

- FEATURES
  - Added the import of eDVIR information using a tractor's VIN for the Samsara integration.
- BUG FIXES
  - Resolved a date display issue in the HOS daily summary for the Samsara integration.
  - Resolved a driver's time display issue in the TMS when the driver was off-duty or in the sleeper berth for the Samsara integration.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.
