

Release Notes

Release Date: 5/13/2025

ADMIN

- BUG FIXES
 - Improved page styling for overall design consistency.
 - Resolved an issue where assigned user groups were missing from an administrative group when synced.

IDENTITY

- BUG FIXES
 - Resolved an issue where a user account was locked after a number of invalid password attempts and the account appeared disabled, even after it was automatically unlocked.

RELAY

- FEATURES
 - Added a common location description to the driver card for customers integrating with Motive, Platform Science, and Samsara. See image, “Common Location on the Driver Card.”
 - Improved page styling for overall design consistency.
 - Updated the organization of our customer-facing Swagger API documentation.
- BUG FIXES
 - Resolved an issue rendering map icons.
 - Resolved an issue where the document type selection menu would unexpectedly close.

ROLLER

- FEATURES
 - Added a notification to alert drivers when they have arrived at a location. See image, “Location Arrival Alert.”
 - Added validation for comparing numeric fields.
 - Improved page styling for overall design consistency.
- BUG FIXES
 - Resolved an issue validating trailers with commas in the ID’s.

ROLLER Desktop

- FEATURES
 - Added a new setting to manage notifying drivers of auto-arrivals at locations. See image, “Manage Auto-Arrival Notifications.”

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.

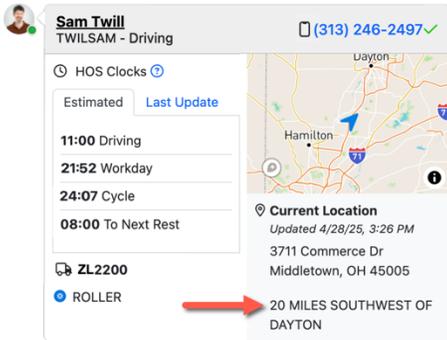

- Added configuration settings to compare numeric fields on documents and forms. See image, “Compare Numeric Fields.”
- Updated the organization of our customer-facing Swagger API documentation.

TORQUE

- FEATURES

- Added an endpoint to identify the properties to ignore when syncing locations.
- Added to the list of statuses that would lead to carrier creation for the Highway integration.
- Added logic to manage alerts sent to drivers regarding new load assignments.
- General maintenance and performance improvements.
- Removed the payment details from refused trips for company drivers and owner operators for the TMWSuite integration.
- Updated the organization of our customer-facing Swagger API documentation.
