Release Notes

Release Date: 7/9/2025

GAUGE

- FEATURES
  - Added a new report, ROLLER Device Usage.

RELAY

- FEATURES
  - Added current trip details for individual drivers. See image, "Driver's Current Trip."
- BUG FIXES
  - Improved page styling for overall design consistency.

ROLLER

- FEATURES
  - Added passenger mode. See image, "Passenger Mode."
- BUG FIXES
  - Resolved an issue where rotating an iPad multiple times could cause the right side of the screen to be cut off in landscape view.

ROLLER Desktop

- FEATURES
  - Added a setting for enabling passenger mode for drivers. See image, "Enable Passenger Mode for Drivers."
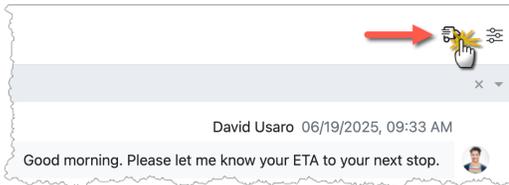

TORQUE

- FEATURES
  - Added a new setting that will not create a deadhead using the trip's previous end location if the tractor's last location is the same as the first stop on the trip being started.
  - Added functionality to pass a flag back to ROLLER when the last update on a trip in TMWSuite is performed by the TORQUE Client preventing the stop status from rolling back.
  - Added the ability to match drivers using the alternate ID field in ADMIN for the PeopleNet integration.
  - Added the stop arrival and departure times for driver assignments configured to create deadheads for the Optimal Dynamics integration.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.

- BUG FIXES
  - Resolved an issue creating carrier qualifications that occurred due to incorrectly mapped fields.
  - Resolved an issue preventing carriers from being reactivated due to expirations.
  - Resolved an issue with a user assigning a trip while simultaneously removing a driver from a planned or dispatched trip in TMWSuite and the trip was not being removed from the driver in ROLLER.
  - Resolved errors that occurred when null values were found on check calls for tractor locations in TMWSuite.

Driver's Current Trip

David Usaro 06/19/2025, 09:33 AM

Good morning. Please let me know your ETA to your next stop.
