We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.

TORQUE

- FEATURES
  - Added functionality to update arrival and departure times in TMWSuite with data from Optimal Dynamics for preassigned trips.
  - Added logic to better control message content sent to RELAY for specific trailer events for the TMWSuite integration.
  - Added logic to use the alternate ID for single sign-on (SSO) in ROLLER if the Geotab provider is set to use the alternate ID.
  - Added the ability to import zones from Geotab into locations in ADMIN.
  - Updated the ISAAC integration to match drivers based on their driver, alternate, or external ID's.
- BUG FIXES
  - Resolved a couple of issues with sorting and filtering the runtime log.
