Motorcity Systems

Release Notes

Release Date: 11/25/2025

ADMIN

- BUG FIXES
  - Resolved an issue where the Driver Group dropdown menu for drivers showed a maximum of 500 groups.

IDENTITY

- FEATURES
  - Enhanced the third-party agreement settings to support sharing a driver's hours-of-service (HOS) Estimated and Last Update tabs, allowing driver messaging with attachments and optional SMS restrictions, and blocking calls to a driver while driving. See image, "Third-Party Agreement Settings."
- BUG FIXES
  - Resolved an issue where a user was still considered active even after their Microsoft Entra account had been disabled.

RELAY Mobile

- BUG FIXES
  - Resolved an issue where the Veterans' Day banner displayed incorrectly.

ROLLER

- BUG FIXES
  - Updated the logic between Geotab and ROLLER to authenticate drivers with the chosen ID format in the Geotab provider settings.

ROLLER Desktop

- FEATURES
  - Added a configuration setting to control the visibility of links to specific driver groups. See image, "Link Visibility by Driver Group."

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.

1

TORQUE

- FEATURES
  - Added a setting to create new carrier IDs using either the DOT number or the first three characters of the carrier's name and city.
  - Added a setting to indicate if contacts should be created in the carrier contacts or company email table in TMWSuite for the Highway integration.
  - Added logic to allow the mapping of customer-specific settings to a template file in TMWSuite for the Highway integration.
  - Added logic to use TMWSuite data that is not provided by the integration partner.
  - Added settings at the provider level to process carrier alerts and onboarding packets for the Highway integration.
