

Release Notes

2026-02-01 Sprint

ADMIN

- BUG FIXES
 - Resolved an issue where the dropdown menu for users was cut off when creating a user group.

IDENTITY

- FEATURES
 - Improved logo support for light and dark modes with separate upload fields for tenants and business units. ROLLER Mobile will support dark mode beginning March 2, 2026. Customers are encouraged to upload logos compatible with both modes for proper branding. See image, “Light and Dark Mode Logo Support.”

RELAY

- BUG FIXES
 - Resolved an issue where, in some situations, group message recipients were not visible.
 - Resolved an issue where the rejection messages for document review did not display fields in the same order as ROLLER.

RELAY Mobile

- FEATURES
 - Added a banner to notify a user when a group message was sent.

ROLLER Desktop

- FEATURES
 - Added column filtering to the Images grid. See image, “Column Filtering for Images.”

TORQUE

- FEATURES
 - Added functionality to adjust the ending and starting times of two trips if there is a possibility of overlap due to the second trip starting within the same minute.
 - Added scheduling for running extracts.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.

- BUG FIXES
 - Improved the logic of the mileage table lookup in TMWSuite to return more miles.
 - Resolved an issue where only the first hook preloaded trailer pickup form on a trip would succeed when updating a trip.
 - Resolved an issue where the driver on a trip was changed in TMWSuite and the removed driver did not receive a cancellation of the trip in ROLLER.

WIRE

- FEATURES
 - Added a new transaction status, “Accepted with Errors,” and improved the sorting of transactions by defaulting to the newest first. See image, “Transaction Status and Sorting Improvements.”
