Motorcity Systems

Release Notes

2026-03-01 Sprint

RELAY

- FEATURES
  - Added logic conditions to scheduled messages for defining recipients. See image, "Logic Conditions for Scheduled Messages."
  - Added the ability to view the conditions and filters that created the recipient list for scheduled messages.
  - Updated the recipient list for a scheduled message to show driver IDs.

RELAY Mobile

- FEATURES
  - Updated the groups filter to support alphabetical sorting. See image, "Alphabetical Sorting."
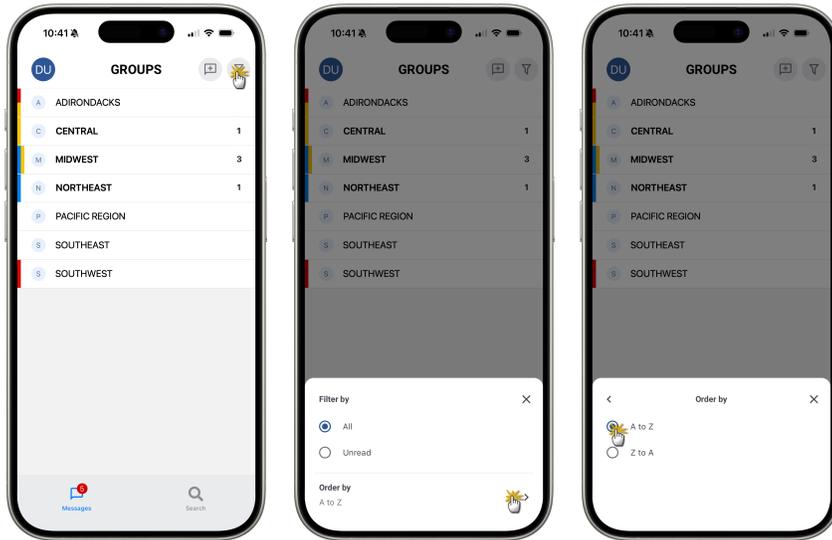

ROLLER

- FEATURES
  - Disabled autocorrection for the fields on the sign-in screen.

TORQUE

- FEATURES
  - Added a mileage comparison tool to the tester app and improved mileage lookups in the TMWSuite mileage table.
  - Added functionality to automatically depart the previous stop if a driver arrives at a stop and the prior stop was not departed for the TMWSuite integration.
  - Added geofence naming fields to the trailer tracking telematics table for the TMWSuite integration.
- BUG FIXES
  - Added logic to adjust the start and stop times to prevent overlapping when a driver ends a trip, starts a new trip, and arrives the first stop of the new trip.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.
