

Release Notes

2026-04-01 Sprint

RELAY

- FEATURES
 - Added a confirmation message informing users that switching between the Recipient filters and Map tabs when creating a recipient list in Scheduled Messages will reset the list.
 - Added banners and updated the column filtering to improve data visibility for third-party agreements.
- BUG FIXES
 - Resolved an issue where the driver's message thread briefly displayed, "No available departments," before the messages loaded.

ROLLER

- FEATURES
 - Added chevrons to the announcements carousel to aid in navigating multiple announcements.
- BUG FIXES
 - Resolved an issue where the app crashed when uploading a large document.
 - Resolved an issue where the app would freeze after a new install on some iOS devices.

ROLLER Desktop

- FEATURES
 - Added a runtime log to ROLLER to store document, image, and signature delivery records. See image, "ROLLER Runtime Log."
 - Added settings to allow users to configure email notifications for failed document deliveries. See image, "Email Notifications for Failed Document Deliveries."

TORQUE

- FEATURES
 - Added the ability to add a pay-to record when creating a carrier for the Highway integration.
 - Added the ability to set a pay-to on the carrier for the TMWSuite integration.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.

Email Notifications for Failed Document Deliveries

⚙️ Settings

Notifications

Define the email addresses to receive document delivery failure notifications.
