

Release Notes

2026-04-02 Sprint

RELAY

- FEATURES
 - Added logic conditions to define recipients and moved the functionality to the group message icon. See image, “Group Messaging in RELAY.”
 - Grayed out departed stops in the Current Trip view to provide a clearer visual indication of progress. See image, “Departed Stops in the Current Trip View.”
 - Updated the search to include third-party drivers and related data with results limited to the user’s active agreements and permitted data visibility. See image, “Third-Party Search.”
- BUG FIXES
 - Resolved an issue where selecting the first driver in a group delayed displaying the department.

RELAY Mobile

- FEATURES
 - Updated in-app message banners to overlay content instead of pushing it down the screen.

ROLLER

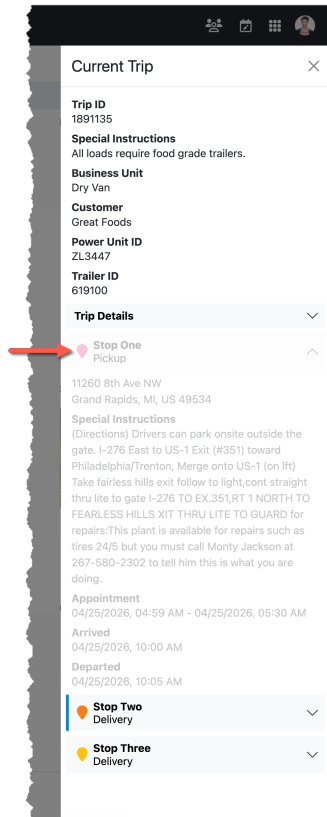

- FEATURES
 - Added the ability for drivers to download PDFs to their devices in Messaging. See image, “Download PDFs to Driver Devices.”

TORQUE

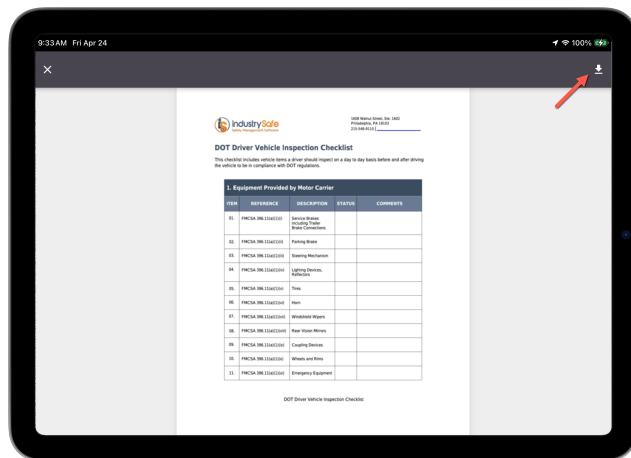

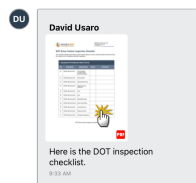

- FEATURES
 - Added a setting that will control if post-process SQL should run if the form has an error for the TMWSuite integration.
 - Added logic to not post trips to Transflo if a driver has not been assigned.
 - Added logic to place phone numbers into a miscellaneous field in TMWSuite if the phone number is more than 10 digits when the carrier is created.
 - Added retry logic to the Transflo load assignment process.
- BUG FIXES
 - Resolved an issue where geofence arrivals at two stops adjacent to each other overlapped causing date and time conflicts in TMWSuite.

We value your feedback! If you have a question about a product or feature, or have something to share with the team, please contact your Motorcity Systems representative or send an email to support@motorcity.systems.
