Motorcity Systems

Release Notes

Release Date: 08/31/2021

ADMIN

- FEATURES
  - o Added a checkbox to automatically send SMS Authorization to Drivers based on the TORQUE provider. See image, "SMS Authorization."
- BUG FIXES
  - o Fixed a bug for adding a new avatar to the Driver profile.
  - o Fixed a bug for saving Drivers and Power Units based on the TORQUE provider.

IDENTITY

- FEATURES
  - o Added a dropdown for Line of Business and fields for MC#, USDOT, and SCAC for Business Units. See image, "Business Unit Updates."
  - o Added limitations for users changing data controlled by Active Directory, e.g. name, email address, and password.
  - o Enhanced Access Level permissions for controlling the visibility of Drivers, Power Units, Trailers, Groups, and Settings in ADMIN. See image, "ADMIN Application Access."
- BUG FIXES
  - o Added email address syntax validation.

RELAY

- BUG FIXES
  - o Fixed a bug that prevented the green "logged in" indicator bubble from appearing on a Driver's avatar. See image, "Driver Logged In Indicator."

TORQUE

- FEATURES
  - o Added Drivers and Driver Avatars to the TMW SQL client synchronization.
  - o Enhanced the Eleos integration to alert Drivers on load updates and allow for data entry fields when scanning documents.
