

# Release Notes

Release Date: 09/14/2021

## ADMIN

- FEATURES
  - Added the ability to specify one or more Contacts for a Location. See image, “Add One More Contacts to a Location.”
  - Updated how the user profile is presented and edited in a modal instead of in a window. See image, “ADMIN User Profile Modal.”
- BUG FIXES
  - Resolved an issue that allowed choosing a disabled Classification when creating a new Driver.
  - Resolved an issue that prevented a Driver without a Driver Group assignment from being edited.

## IDENTITY

- BUG FIXES
  - Resolved an issue that prevented users without access to IDENTITY from changing their own email address and password.

## RELAY

- FEATURES
  - Added a visual notification to show the number of open tasks assigned to a user. See image, “Open Tasks Notification.”
  - Added visual notifications for birthdays and work anniversaries for Drivers. See image, “Driver Birthday and Work Anniversary Notifications.”
  - Messages are only visible for 30 days in the Message History.
- BUG FIXES
  - Fixed a bug that duplicated and incorrectly sorted messages.

## TORQUE

- FEATURES
  - Added a checkbox to give a user the option to combine multiple TIFF files into a single file. See image, “Combine Multiple TIFF Files Checkbox.”
  - Added Document Types to the Runtime Log. See image, “Document Types in the Runtime Log.”
  - Added an icon to the Providers screen indicating if an Eleos provider configuration experienced a problem. See image, “Eleos Provider Problem Icon.”
  - Added the ability to assign the default TORQUE providers to new Drivers and Power Units. See image, “Automatically Assign TORQUE Providers to New Drivers and Power Units.”
