

Release Notes

Release Date: 10/12/2021

ADMIN

- FEATURES
 - Added dropdown menu options for a driver's veteran status. See image, "Veteran Status."
- BUG FIXES
 - Resolved an issue that prevented new driver creation when a phone number was added.

GAUGE

- FEATURES
 - Added access level control for reports and workspaces which is managed in IDENTITY. See image, "GAUGE Access Level Control."
- BUG FIXES
 - Resolved an issue that automatically enabled new report visibility upon creation.

IDENTITY

- FEATURES
 - Created a landing page that appears when a user tries to access an application they do not have access rights instead giving them options to visit applications they may access.
- BUG FIXES
 - Resolved an issue editing Access Levels.
 - Resolved an issue editing Terminals.
 - Resolved an issue that prevented the assigning user from automatically being added to a task upon creation by default.

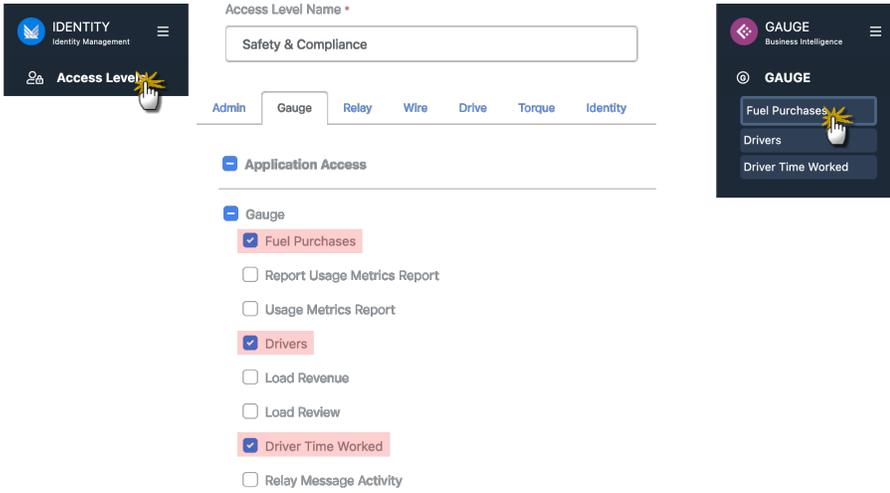

RELAY

- FEATURES
 - Enhanced messaging to allow for users to jump from one driver to another in the middle of composing and not lose unsent, typed content.
 - Enhanced search cognition specifically to allow exact match and close match items to be listed at the top of the results instead of results being sorted by date.
 - Removed irrelevant notifications from being shared such as change of duty and read receipts.
- BUG FIXES
 - Resolved an issue where drivers were not showing up in Driver Groups.
 - Resolved an issue where language translation failed due to region.
 - Resolved an issue where Messages appeared when toggled off and Forms was toggled on.
 - Resolved an issue where Tasks were not automatically updating unless the page was refreshed.
 - Resolved miscellaneous issues with notifications.

TORQUE

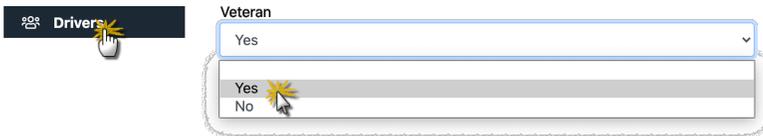

- FEATURES
 - Added the synchronization of Power Units for Geotab.
 - Enhanced Eleos document processing by making the process asynchronous.
 - Updated the TORQUE client to allow for the consumption of veteran status data.
- BUG FIXES
 - Resolved an issue with driver synchronization with Geotab.
 - Resolved an issue with Microsoft Active Directory Sync not allowing for more than 20 users to be synced per group at a time.

GAUGE Access Level Control

The screenshot shows the GAUGE Access Level Control interface. On the left, a sidebar menu for 'IDENTITY Identity Management' has 'Access Level' selected. The main content area shows 'Access Level Name' set to 'Safety & Compliance'. Below this are tabs for 'Admin', 'Gauge', 'Relay', 'Wire', 'Drive', 'Torque', and 'Identity'. The 'Gauge' tab is active, showing 'Application Access' for 'Gauge'. A list of features is displayed with checkboxes: 'Fuel Purchases' (checked), 'Report Usage Metrics Report' (unchecked), 'Usage Metrics Report' (unchecked), 'Drivers' (checked), 'Load Revenue' (unchecked), 'Load Review' (unchecked), 'Driver Time Worked' (checked), and 'Relay Message Activity' (unchecked). On the right, a smaller screenshot shows the 'GAUGE Business Intelligence' sidebar with 'Fuel Purchases', 'Drivers', and 'Driver Time Worked' listed.

Veteran Status

The screenshot shows the 'Veteran Status' dropdown menu. The sidebar menu for 'Drivers' is visible on the left. The dropdown menu is open, showing 'Yes' as the selected option and 'No' as an alternative option.
