Release Notes

Release Date: 10/26/2021

IDENTITY

- FEATURES
  - Added the "Last signed in" timestamp for Active Directory users in the Users grid. See image, "Last Signed In Timestamp."
  - Focused the Active Directory integration to only affect groups created in Active Directory.
- BUG FIXES
  - Resolved an error that allowed Active Directory users who were disabled and removed from User Groups to sign in.

RELAY

- FEATURES
  - Added a visual notification for veterans for Drivers. See image, "Veteran Status Notification."
  - Added High Priority Forms notification. See image, "High Priority Forms Notification."
  - Added toggles for users to turn groups on or off in the Groups Panel. See image, "Groups Toggles."
  - Updated the Driver Card to show the estimated HOS time by default. A click gets you to last reported. See image, "Estimated HOS Time on the Driver Card."
- BUG FIXES
  - Resolved an issue where the HOS wasn't showing in Drivers Pane.

TORQUE

- FEATURES
  - Added a telematics log for the Eleos integration. See image, "Eleos Telematics Log."
  - Added High Priority Forms settings that show in RELAY. See image, "High Priority Forms Settings."
- BUG FIXES
  - Suppressed a 409 error from showing for the Platform Science integration.
