Version: 2.2.36

Application Settings

Driver communications ⓘ

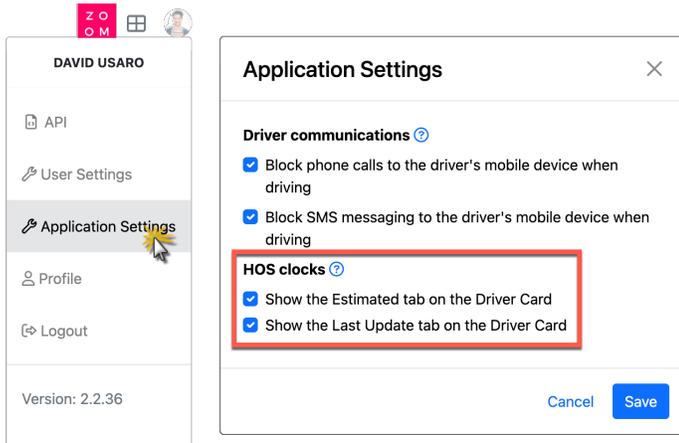

- Block phone calls to the driver's mobile device when driving
- Block SMS messaging to the driver's mobile device when driving

HOS clocks ⓘ

- Show the Estimated tab on the Driver Card
- Show the Last Update tab on the Driver Card

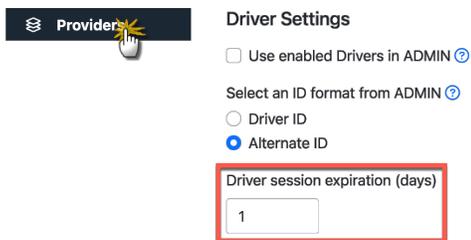

Cancel **Save**

Application Settings for HOS Clocks

The screenshot shows a user interface for 'Application Settings'. On the left is a sidebar with the user's name 'DAVID USARO' and a 'ZOOM' logo. The sidebar contains menu items: 'API', 'User Settings', 'Application Settings' (highlighted with a yellow star), 'Profile', and 'Logout'. At the bottom of the sidebar is 'Version: 2.2.36'. The main dialog box is titled 'Application Settings' and has a close button (X). It contains two sections: 'Driver communications' with two checked options: 'Block phone calls to the driver's mobile device when driving' and 'Block SMS messaging to the driver's mobile device when driving'. Below this is the 'HOS clocks' section, which is highlighted with a red box and contains two checked options: 'Show the Estimated tab on the Driver Card' and 'Show the Last Update tab on the Driver Card'. At the bottom right of the dialog are 'Cancel' and 'Save' buttons.

Eleos Driver Session Expiration

The screenshot shows the 'Driver Settings' configuration page. On the left is a dark sidebar with a 'Providers' menu item highlighted by a yellow star. The main content area is titled 'Driver Settings' and includes the following options: 'Use enabled Drivers in ADMIN' (unchecked checkbox), 'Select an ID format from ADMIN' (dropdown menu), 'Driver ID' (radio button), and 'Alternate ID' (selected radio button). Below these is a text input field labeled 'Driver session expiration (days)' containing the value '1', which is highlighted with a red box.
